CHEAP CLEARING SALE

Which is now going on.

A detailed black and white illustration of a large crowd of people, likely at a public sale or fair. The scene is filled with men and women dressed in late 19th-century fashion. Men are wearing top hats, frock coats, and waistcoats. Women are wearing long, flowing dresses, high-collared blouses, and various styles of hats, including wide-brimmed ones and top hats. The crowd is dense, with people looking in different directions, some towards the camera and others away. The background shows a simple, possibly outdoor setting with some structures visible in the distance. The overall style is that of a classic woodcut or engraving.

LOCAL AND GENERAL

LOCAL AND GENERAL.

A REAGIN.—Thomas Doyle, the accomplished pianist and singer, will appear at the Lyceum on the 20th June, 1879, for the purpose of raising funds for the purchase of the new theatre in England, during which he will sing the hymn, "I am a stranger here," and choose the melody in the spot.

THE GREATMAN MAN.—The greatest man who ever chose his way with invincible resolutions; who resist the moral temptations from within and without; who bears the heaviest cross cheerfully; who thunders against sin; and whose reliance on God, on virtue, on God, is the most useful.

THE PUBLIC ROUSE—The public meane, as seen in the streets, is "flushed with joy" to see the king on his legs to address a social assembly. "The king's face," says the poet, "will deliver himself of the remark that is unaccustomed to him in speaking, and then look as if he thought of saying something very neat and original."

THE PUBLIC ROUSE—The public meane, as seen in the streets, is "flushed with joy" to see the king on his legs to address a social assembly. "The king's face," says the poet, "will deliver himself of the remark that is unaccustomed to him in speaking, and then look as if he thought of saying something very neat and original."

A NICE HANDEL.—The "Hansel" continues to prove regularly. It is nicely printed. It is too late, however, to remedy the bad arrangement, previously mentioned, of placing each day's report with page "11" instead of continuing the number of the pages consecutively from the beginning. The only thing left for editors to do is to do this for themselves.

A NOBLE EXAMPLE.—A youth of about fourteen named John H. Snider set an example to other boys this morning by submitting a paper to the editor.

OUR LADY OF LOUBOUER.—This is the title of a very beautiful picture sent us by Troy & Co., publishers of the *Tribune* of Toronto. This *Tribune* is published in the interests of the Catholic people of Ontario, and is supplied to subscribers at \$1.00 per

annum including a free copy of the above named picture, and is a very interesting paper.

LOW WATER.—All parts of the Dominion are suffering acutely from the scarcity of water. Even our largest rivers flowing from our great lakes are not able to supply the canals of which they are the feeders. The owners of boats are complaining that

REMARK ABLE.—“A remarkable winter in Montreal, where there are a large number of extensive manufactories, five thousand men have been thrown out of employment, the water in the canal not being sufficient to run the machinery. It is a hard luck-out for these poor people to be thrown out of work at this inclement time of the year.

Yes, to be sure—but how very often we do have a "remarkable winter!" almost since our earliest recollection winters have been "remarkable" for something—this year for severe cold, last year for the unusual mildness of the weather; some other winter for great snow storms or for great lack of snow, and again for heavy fogs, ice berdes, or some other too plenty. Why then unworthily beggar assist in allowing com-

PRESENTATION.—We are glad to learn from a correspondent that our friend and townsman Rev. J. W. Sills, whose field of labour is in the Township of Sophiasburgh,

P. E., was on Tuesday evening, the 23rd instant, presented with a purse containing \$180. Said presentation took place at the old Conger church. There was a large assembly of his friends present. Addresses were delivered by Rev. B. Lane, B. A., of Napanee, Rev. J. B. Aylsworth and others — Miss Davis presiding at the organ. The same was collected, at the Northport.

ENGLISH SPARROWS.—The hardness of these little birds has been well tested dur-

ing the late cold snap in London. There were a number in that city brought ashore experiments last season. Three of these have domiciled during the winter under the eaves of the residence of Dr. J. H. Flock, Dundas Street. Every day they have come into the street to huddle their crops, and seemed as nimble as ever under the same old weather. The advanced (thus

shown by the sparrows should induce our citizens to import a large number of these useful birds. They have a strong relish for the insect tribe, and would prove of much advantage in the protection of the trees, which it is becoming more and more the fashion to cultivate amongst us.

ANOTHER STRIKE IMMINENT.—The London

Advertiser says unless the Grand Trunk Railway Company recede from the position it has taken, it is very probable there will be another strike on the road, this time among the engine drivers and firemen. Contrary to what was at first believed, it appears that the late reduction of wages affected the engine drivers and firemen as well as the conductors and brakemen.

There is also another grievance, viz., that no allowance is made for detentions. Although 12 hours are said to be a day's work, practically the men claim that they give thirteen, for it takes them half an hour to get their engines ready, and half an hour to, as storekeepers would say, "shut up shop." The movement in opposition to the Company extends the whole length of the

line. If a strike takes place, it will be without reference to the Brotherhood of Locomotive Engineers, as both union and non-union men will take part in it. It is to be hoped that wise counsels will prevail, and that the threatened strike which would cause great injury to the business of the country, will be averted.

MEMORIAL LUN.—The regular monthly meeting of this club was held on Monday evening the 22nd inst. Dr. James read a paper on experiments made by himself in chemical analysis of air taken from different localities at different times showing the amount of oxygen and carbonic acid gas in each, viz: From the highlands of Madoc and Marumora, from the streets of cities, from crowded halls, from hospitals, from clove rooms, and bath-

rooms in which kerosene lamps had been burning all night, he practices he strongly dis-
respected) and from small and ill-ventilated
school houses in this county, in which he
found the air contained only 20.04 per cent
of oxygen and an excess of carbonic acid gas,
which he considered it very important that
school houses should be properly ventilated,
and that the time of children in school

A discussion on the proper ventilation of school rooms ensued, in which part was taken by Prof. Ball, Dr. James, and Thos. Wille, M. P. "The mystery is very simple of solution,"
I murmured laughing. "Only that I am
about to leave you."
"How?"
"I love you—at once and for ever," I
repeated firmly. "The husband of a dis-
tressed wife, the cold-hearted, unfeeling
deceives."

"Stop!" he said, calmly, and with a
stronger expression of emotion in his
voice. "You may not, Rose, at any time
I must be dreaming. This never can be."
"I will rather wait," I said, firmly.
"I do not really mean it, Rose?"
"I do," he said.

"Tell me what it is the sensation which
you have when I am against you?" he
asked.
"Never!" I said, laughing.
"Am I then to be considered unfeeling?"
"I am not," I replied, indignantly.
"For I never can call you 'husband' or
'wife'."

"He said," he said, "remember the
decision of this hour will last for ever."
So he left me. I muttered
"He turned away."
But as he turned a cold hand encircled
my arm.

The lovely girl in black was by my side
again like a phantom.
"You are not," she murmured. "I am
your husband's first wife."
"I will be," he said, "starting as if some
sudden blow had stricken him."
"Yes, Isabel," she answered. "I am
worthy, and I am worthy of you."

"I am not," she said, "I am not worthy
of you. I am not worthy of you. I am not
worthy of you. I am not worthy of you."
"I am not," she said, "I am not worthy

PLANT TREES.—Now is the time to plant trees along the highways. Let all the vacant places along the highways be filled up with trees. Township Councils should make it a rule to plant one tree for every two dollars successfully expended for the improvement of the highway. The planting of trees along the highways is not only attractive, but it is also a very profitable investment.

At Rest and Thankful.

How thankful indeed must be wandering Willie. How thankful he should be no one can imagine without a glance at the following record. Oh, how weary, after such a race, such a bootless, sickening race:—

1854North Wentworth.....	Rejected.
1854Waterloo.....	Rejected.
1857	Rejected.

1863	North Oxford	Rejected.	The pain in his hand lead is now applied to.
1864	North Oxford	Rejected.	
1864	North Ontario	Rejected.	
1872	North Lanark	Rejected.	
1875	East York	Rejected.	

In 1869, to vary the performance, though the variation was a slight one, Manitoba rejected him as Lieutenant-Governor.

To all the contingencies named. M-

McDougal appeared as a Reformer. Some of them tried him for a term, but all dispensed with his services eventually. Conservative South Simcoe has consequently secured a well-tried candidate. A gentleman who has done so much running cannot fail to stand well in the House—albeit a little restless on his ring-boned and spavined legs.

The Fishery Commission.

The Treaty of Washington provides for the appointment of a joint commission to settle all questions connected with the Maritime Fisheries of Canada which, under the said treaty were thrown upon the

American Fishermen. The British Commissioner there referred to is appointed by the Imperial Government, but they very wisely left the selection in the hands of the Government of Canada, believing as everybody on this side of the Atlantic believes, that a Canadian would be likely to better understand the intricate nature of the points to be decided than any other.

ordinarily well informed British statesman. We are informed that the gentleman selected by the Government to discharge this onerous and delicate duty is Sir Alexander T. Galt, and that the selection has met with the sanction and approval of the authorities at home. The country will learn of this with very great satisfaction. No

selection that could possibly have been made would give greater confidence that the final award will be a just one, combining, as Sir Alexander does, great experience of and extensive acquaintance with public affairs, a deep interest in the welfare of Canada.

Accident.

Taken from the *Picton Times* of yesterday :—

The following telegram from Capt. Porte, of the steamer *Utica* was received in Town yesterday afternoon, from Mill Point.

"Near Townsend wood saw a boat upset,

with two men caging to it. Saved one, Herman Harre, says the other was Thos. Hooper, a tinsmith of Picton. Him we could not save nor recover the body."

but for the purpose of fishing. The accident occurred in the centre of the bay, between the Pottery wharf and the bulk of the steamer Ottawa, at about 11.30, by a heavy swell, and Hooper observing it, leaped to one side of the boat to meet it, and in doing so, the treacherous craft immediately filled, and the occupants jumped

out. We got hold of the boat again and held on to it, keeping ourselves afloat by kicking and paddling. About this time the steamer Utica hove in sight, and in coming up the bay, Hooper waved his cap, at the same time calling out: "For God's sake come and save us!" The signal was not observed by any one on the steamer, and of course she kept on her way to Pictou.

On the Ulica's return to Belleville, the unfortunate men were observed by Captain Porto, who immediately went to their assistance. Life preservers were thrown them from the steamer. Harro succeeded in getting hold of one, and was rescued from his perilous position. Several life preservers were thrown to Hooper, but he seemed to pay no attention to them, being

Several parties are out grappling for the body, but at the time of going to press it had not been recovered. We are informed that Hooper was a good swimmer, but being in the water over two hours, had got so

summed that he is completely powerless to help himself. Mr. James Hooper, brother of the deceased, has the sympathy of the entire community in his sad bereavement.

Prince Edward Notes.

regular discovery has just been made in a field street, (Seine-et-Oise). Some workmen, digging in a field, found at a depth of about six feet a skeleton wearing a helmet and cuirass, and at the end of the hill of a sword the blade of which had eaten away by rust. The armor appears to be made of solidly laminated, and traces of fragrant oil still be even in the breast plate.

Preparation of Vigor it gives to the hair, and prevents the formation of dandruff, which is often so unpleasantly and offensively. Free from those deleterious substances which make many preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. It contains neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Arrangements are being made by the Department of Militia and Defence for the payment of a subsidy granted to the veterans of 1812-15. A staff officer of militia will proceed shortly through the several military districts of Ontario in that order, and the militia men who have applied for pensions will be notified to appear at a central place in each county to establish their claim to a share of the money voted by Parliament.

One of the favorite ploys of the United States Treasury Department to add the customs revenue, is to lure Congress to enact the tax upon tea and coffee. In the year ending June 30, 1878, the amount collected from the duty upon coffee alone amounted to \$10,959,988.77, in the year following—the year of the repeal—over \$7,000,000. With the abolition of the duty upon coffee, the resulting reduction in the price to the consumer, as by the abolishment of the tea and coffee tax, it is claimed, the government has lost an annual revenue of over \$15,000,000, although the average consumer being benefited.

A CLOSE CALL.—The N. Y. Tribune says:—Last Saturday morning a woman who had been in the Centre street heard the fire alarm, and, as she was in the middle of the course she said, "O my," jumped out of bed, lit the lamp, threw a shawl over her head, and went to see, she was just behind her. In the excitement she almost threw the blazing tapers out of her hand, and in the midst of an odious mass of confusion she was standing on her dressing stand, and, as she was about to get out, a neighbor fortunately came in, and, seeing the danger, and, not hesitating a moment, she took her by the arm, and, carrying her out, she was saved.

"CUTTING DOWN EXPENSES," said the speaker, "is the practice of some of our railroads. It has been great since the panic, and it has kept them more than they ever before. But the amount of work it is up to man to do. One railroad or two or three times had to cut down on every man now necessary," said recently. Election Cases.

Montreal, Mr. Devlin has admitted bribery by agents. The politicians making the personal charges against him in the North Victoria case the justice has declared the election of McDougall void on account of corruptions by agents. In the West case the personal charges against agents, who was recently unseated on account of bribery by agents, was dismissed. Judgment has been reserved in the case of his scrutineers, who, at the election, was disqualified from

THE RAILWAY GRUPE.—The September number of Chisholm & Bros.' *International Railway and Steam Navigation Guide* has been received. It contains the time table for the various routes, and will be found very useful.

All who wish to take part in the match are requested to be present.

The Committee will report the result of their labors, and other business of importance will be brought before the meeting. A large attendance is requested.

A VALUABLE AND "SAFE" INSTRUMENT.—Yesterday afternoon a fine opportunity of inspecting a large and finely made safe which has recently been placed in the premises of Messrs. A. & J. Malles. The safe was manufactured by Mr. G. Edwards of Montreal, and we believe one of the best fire and burglar

LIFE-SAVING DRESS EXHIBITION.—Our readers should bear in mind that Capt. Griffith will give an exhibition of his "Life-Saving Dress" at the Lyceum, on Paul Boyton's "Life-Saving Dress" to wear in the Lower Cape. To account for those who may wish to witness this interesting sight, the steamer Rochester will make an excursion at reduced rates.

HARVESTING.—Harvesting is now nearly

over, and it is rather singular that we have not yet heard of any great or wonderful catches having been made in the harvest field. Can't some one relieve us in this emergency? Can't some one come in from the "shore" and show us some kind of grain to be sown? It should be a pretty good day's work and thus start the excitement.

THE SMALL PRACHES.—It seems that we owe the remarkable supply of cheap early

weeks to a blunder of the Delaware and Maryland peachgrowers. Many of them, it is said, have been of late years giving up the cultivation of the cherry variety, in order to produce an early fruit and be first in the market. As a consequence they have glutted the market with poor half-ripe peaches, stripped from the trees at the first sign of red on their cheeks, and prices have tumbled so that the growers will totally

BOLD LARCENY.—Shortly after 10 o'clock this morning some party entered the grocery store of Mr. Crosby, and stole a cash box which was lying under the counter, and made off without being detected. Mr. Crosby was in a room at the rear of the store at the time, and was not aware of the larceny until Mr. Crosby had been to the market, came home. The box contained a number of valuable receipts and a

small sum of money, probably between three and four dollars. Efforts have been made to discover the perpetrator of this bold act, but up to the present writing without avail. This is certainly one of the most daring robberies that has occurred here for a considerable time.

hate the uncertainty of the future for our labor," Kingston "Whig." We were not aware that it was for sale, and so we have one of our own the offer can be made to Shannonsville. Our harbor however is pretty well filled with seaweed, but "as the present state of the financial affairs of the country is such that it is impossible to expend the money which would be required for the expenditure that would be incurred in improving its condition, it will have to remain as it is or grow worse, until the Town Council "can see their way clear" to remedy this

SUDDEN DEATH.—The Napanee "Standard" has the following:—Wednesday evening of last week Mr. James Carson, of this town, retired for the night in his usual good health. On the morning of the 4th he awoke with severe pains in his bowels. Medical assistance was at once procured, and everything possible was done to alleviate his sufferings, but with very little effect, as he continued to grow worse until about four o'clock, when he expired. The cause of death was not ascertained.

truly sudden death was a great shock to those who knew Mr. Carson, and were accustomed daily to see his cheerful face and receive his friendly good morning. His funeral was held at the residence of his wife, by a large number of his friends who deeply sympathized with the widow and her relatives of deceased. Mr. Carson had been a resident of this county twenty years, and in the two towns he lived in, and was well beloved without exception. His funeral will be held at 10 o'clock on Thursday next at the residence of his wife.

A CHANGE OF RESIDENCE.—We clip the following complimentary notice from the *Picton Times*: "I have heard that our townsman, Mr. John Henderson, formerly proprietor of the 'Henderson House,' in Pictou, has leased the 'Dafco House,' Belleville, and took possession on Monday last. Mr. Henderson's affability and genial character are well known to his many friends."

...Pietin, with whom he was thrown before he entered public life, and his internecine fighting with the masses and travellers seeking a temporary home, gave to him a world-wide notoriety, as his home was really what it is now called—a 'Cosmopolitan Hotel'. Travellers from all parts, when visiting Picton, enquired for 'John van der Merwe's', where they enjoyed a comfortable and quiet home. to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Pits, Neuralgia, Heart Disease, Female Catarrhs, Dropsy, and Leucorrhoea, when they are manifestations of an acrofulous poison.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless humor of the season. Even where no disorder appears, people feel better, they are longer, retain the blood. The system is revived with renewed vigor and a new lease of life.

Then again it often occurs that those who are the most deserving are the least likely to solicit assistance, and that the most deserving are at once scorned by the public as such. There are many young ladies, whose time is not wholly taken up with their household or social duties, who could let a glow of sunlight into their own existence by the way of making a few kind words and a few kind deeds to their fellow-mortals, without much trouble or much cost, and they would not only be earning for their future enjoyment, but also for the enjoyment of others.
